OH - 4615	General Utility	1 Req.	\$36.645	2nd	Chassis
OH - 4616	Team Leader - ICE Launch	1 Req.	\$1.50 above	2nd	Trim

TRAFFIC PATTERN

The Union met with the company, and additional changes will be made to the entranceway on the Abbe Rd side. Over the weekend, we successfully implemented one of the first changes: the jersey barriers were taken away, and the curve was removed to allow for a smoother turn into the parking lot. Further changes will follow once the ODOT study is completed. We will continue to keep you updated.

UPDATES

D2D: Department to Department sign up period is the first full week in April (April 7-11, 2025)

Summer Vacation: The week of June 30th will be our summer shutdown period for one week. Since the 4th of July falls during the shutdown and is a paid holiday, The 4th of July hours will automatically be converted to a personal day. No action is required on your part.

New Building V801 project: We understand this is a hot topic. We are currently working on contractual language that will give you opportunities to be able to work in the new building. The first steps were to get our launch team; both production and maintenance on the V801 project (New build / product).

The next phase of the new building will begin soon, which includes the installation of all interior workstations, production lines, work cells, robot cells, and more. This process will take some time to complete. Your negotiation team is planning an open house so everyone can see the progress in the building. More information will be shared soon.

Locker Room: The company has agreed to update the locker rooms, starting with the locker rooms in Final. The updates will include new showers, flooring, lockers, ceiling tiles, and fresh paint. We are also adding a 3D innovation room as part of these changes.

Important: If you have a locker that wasn't assigned by Employee Relations, please remove your lock as soon as possible and visit the Employee Relations office to have a locker officially assigned to you. These lockers are designated for employees who need coveralls (e.g., Maintenance or Body Shop employees). This needs to be done promptly so we can begin removing unused lockers and start the renovation process.

Gate Collection: A gate collection for Darren Huber will take place on Monday April 7, 2025
