H-Line: The H-Line volume forced us to a temporary layoff (TLO) that will continue until November 3, 2025. While we cannot predict the future with certainty, please know that if orders for the H567 increase, we will resume night shift operations as soon as demand supports it. We are closely monitoring the situation and will make adjustments as necessary based on incoming orders.

Our priority remains avoiding a Permanent Layoff (ILO), and it is always our goal to keep as many team members working as possible. Thank you for your ongoing commitment, patience, and understanding as we navigate these changing business conditions.

REMINDER: Rebalance Period – 2025: The company's rebalance period for 2025 will begin on **July 7, 2025**, and conclude on **November 3, 2025**. The tasks assigned during this period are aggressive, and we want to stress the importance of every employee working at a normal pace and strictly following their Operator Instruction Sheet (OIS).
